*What are you
passionate
about? ...for the
future of our
families..*

Do you work with teenagers or families in your community?

This Core of Life Facilitator Training Day may interest you...

Core of Life is a unique life-education program which helps young people to understand the reality of becoming pregnant, giving birth, feeding and parenting a newborn, preferably before they are pregnant!

Our 'hands-on' workshop will offer inspiration and an opportunity for networking with others. It will teach you the skills needed to co-present Core of Life to teenagers in schools or in the community.
